head office miami · hong kong · production shanghai

Landmark trees.
Made to last.

Every tree in this catalogue is built to order in our production workshops in Shanghai. Height, canopy shape and trunk form can be adjusted to your drawings.

So realistic that you think it's real up until the moment you touch it. Hand-molded from real trees for the most lifelike textures and habits.

Heights

The heights we can produce range from 3 mts to 30 mts.

Made to size

Canopy, trunk and height are made to measure for each project.

Modular, rock-solid, and bulletproof

Each tree consists of a substantial fastenable plinth and robust steel frame, even suitable for the roll of cruise ships, cladded in poly-etheylene or fiber-reinforced resin, and feature seams that are integrated into the bark or texture of the tree that disappear once assembled.

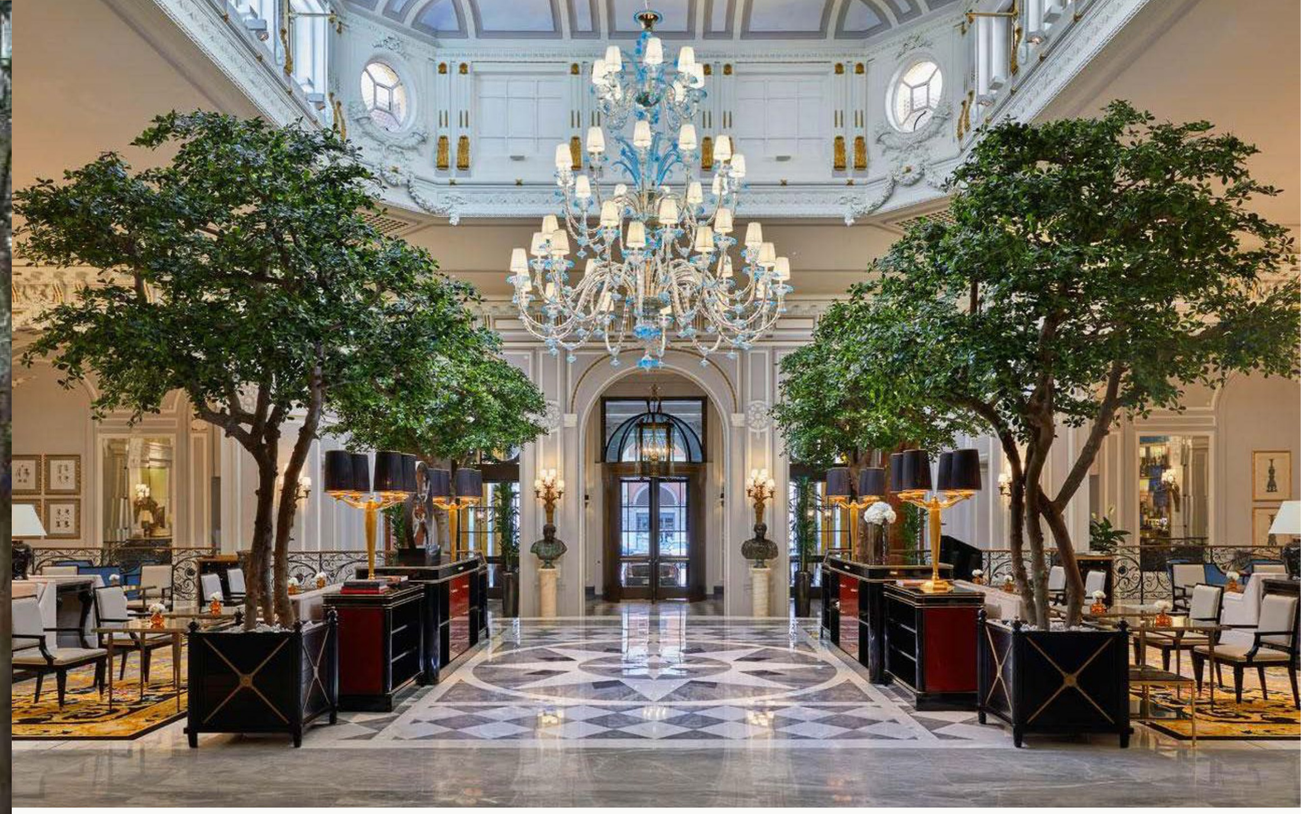

UV resistant

UV-resistant leaves and finishes that keep their color in sunlit spaces and outdoors. Titanium oxide and iron oxide pigments for longevity.

Fire retardant

Fire-retardant trunks and foliage are available, tested by SGS to ASTM E84 Class A.

Tree samples

Ficus, banyan, olive, maple, ginkgo and birch feature trees for lobbies, malls, restaurants, and theme parks.

Plant wall samples

Our green walls are built from modular panels that mount like cladding. Patterns, colors and logos can be worked into the planting.

Modular panels
Lightweight panels for walls, columns and ceilings, indoors and outdoors.

Custom design
Patterns, color bands, logos and signage built into the planting.

UV resistant
UV-resistant leaves and finishes that keep their color in sunlit spaces and outdoors. Titanium oxide and iron oxide pigments for longevity..

Fire retardant
Fire-retardantfoliage is available, tested by SGS to ASTM E84 Class A.

No maintenance
No pumps, drains, grow lights or maintenance contracts.
